

Our Services

A group from erstwhile I-flex solutions.
Deeply experienced in DWH & BI in BFSI
Focused on emerging Big Data technology
Deep & varied experience in large data warehouse in major banks
Good mix of technical & domain expertise
Among us we have handled DWH for Citibank, Deutsche Bank, State Street, FCB, RBI, SBI, Barclays, SBI Bank etc.

With our deep experience we offer high level consultancy

- BI Strategy
- Advanced Analytics
- Data Modelling
- Data Governance
- Big Data
- Training

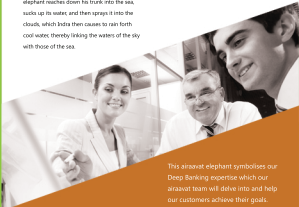

Our team consisting of domain & technical resources can execute projects onsite as well as offshore in our Bangalore, India facility.

Since our team has varied skills we consult in banking related projects especially in Risk technology. Our team has deep exposure to tools like SAS, SPSS, CFSAA (Rowless).

We undertake ITIL & PMP training also.

About Airaavat

Airaavat is the King of Elephant and bearer of God Indra. Its five trunks represent this mighty elephant reaches down his trunk into the sea, sucks up its water, and then sprays it into the clouds, which Indra then causes to rain forth cool water; thereby linking the waters of the sky with those of the sea.
